As of September 30, 2001

BASE CLOSURE AND REALIGNMENT SCHEDULES

This document provides completion dates for the approved recommendations of the 1988, 1991, 1993, and 1995 Base Closure and Realignment Commissions (BRAC). The report was compiled from information received from the Military Departments and Defense Agencies and is current as of September 30, 2001.

Installations are listed alphabetically by BRAC round, Service and state as reflected in the respective BRAC reports to the President. Please note that evolving circumstances subjected the original projected dates to change.

A summary of the major base closures and realignments from each of the four BRAC rounds is at the end of the report. As of September 30, 2001, all ninety-seven of the major installations have closed or realigned.

Questions regarding this document should be directed to Ms. Katie Smith, 703-604-2400, Office of Economic Adjustment, ODUSD (Installations & Environment).
